Professional Synopsis

I am currently employed UK base company call Cryptodyne (Pvt) Ltd as senior web designer. My area of expertise lies primarily in Rich Multimedia Websites, Web 2.0 Sites, Multimedia Corporate Profile, Graphical User Interface Design and developing, Search engine optimization, Branding and User likenesses on the World Wide Web. With over 6 years of experience in the field, I have gained a vast knowledge of www technologies catered towards multimedia. I have a sound understanding of client usability and I am always getting in touch with the latest multimedia designing, developing trends and methodologies.

With my creative vision and ambition to cater the best multimedia solutions to our clients, I have served a vast clientele which includes; John Keels, Access Group, Red Dot Tours (UK), Aitken Spence, Bartleet Group, Havelock City, Adaaran Resorts (Maldives), Victoria Golf and Mahela Jayawardena to name a few.

I have been involving to recruit the right creative minds with the potential and eagerness to build better solutions, I have been lucky to oversee and deploy several websites, multimedia solutions and presentations which have won critical praise and recognition. I have also proven my abilities on time deliveries and adequate research and development as well.

I utilize my knowledge for the benefit of the organizations, while developing my career by accepting challenges, delivering quality output on time, continued learning, and being a good team player.
